PANEL AIR FILTERS FOR CARS

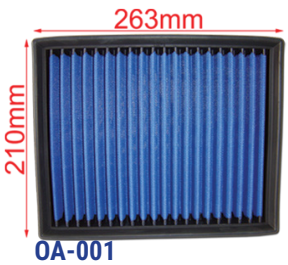

1.Made of unique EPDM frame
2.One-piece extrusion molded
3.Extremely lightweight
4.strong structure

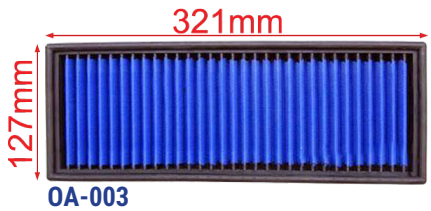

–nonwoven fabric (epoxy resin) stock replacement air filter can greatly increase air intake volume and the air intake efficiency of engines.
It is designed for use under both non pre-oiled and pre-oiled conditions, and is more dust-absorptive than original air filter models. It ensures extended engine operating life and even smoother air intake, and increases horsepower at least by 5%.
